I have read and listened intently for the last several months for those who are on a budget and do not have the luxury of a Gen 3 device and needed a lower cost alternative. After some exhaustive testing, the D-300 Gen 2 monocular is it. For those who's mission requires shorter recognition range out to 150 yards, with the use of "Da-Torch" IR illuminator, the D-300 can't be beat for around 1K. I STRONGLY feel this is the least amount of money that can be allocated in order to get satisfactory results. The so-called \$150.00-\$500.00 units were all looked at, and the D-300 won out on all fronts for clarity, resolution and versatility.

The long list of standard features for the D-300 includes a Mil. Spec. optics, high-power multi stage infrared illuminator out to 30 yards, internal low battery and infrared indicators are packaged into a compact and rugged housing along with a Pelican hard case, and user manual round out this cost efficient NV package.

With the use of optional accessories, D-300 can be configured for a multitude of mission requirements:

- Hands free mono-goggle (with the optional headgears or helmet mount)
- Night weapon sight (with the use of the optional weapon mount and EoTech or Aimpoint)

Standard Accessories for the D-300 include,

- Pelican Hardcase
- Soft Case
- User Manual
- CR123 Battery

Specifications

- Image Intensifier Generation - 2+ US
- Resolution - 28-38 lp/mm
- Magnification - 1x (3x or 5x optional)
- Lens System - 25 mm f1.2
- FOV - 40°
- @1000 yards - 2099'
- @1000 meters - 640 meters
- Range of Focus - 10" to infinity - 25 cm to infinity
- Detection Range - 656', 200 meters
- Recognition Range 495', 150 meters
- Diopter Adjustment - +2 to -4
- Weather Resistant - Yes
- Camera/Camcorder Adaptable - Yes
- IR Illuminator - Yes
- Battery Type/Life - CR123/40 hours
- Dimensions - 5.5" x 1.8" x 2.5", 140mm x 46mm x 64mm
- Weight - 16 oz, 454 grams
- Operating Temperature - -4° F to 113° F, -20°C to +45°C
- Warranty - 2 years

Price for the D-300 Gen 2+ is \$1479.00 plus S/H-Ins.

Price for the D-300 Gen 2+ Mil-Spec Unit which includes a tube data sheet and a hand picked tube for the cleanest tube in stock is \$1659.00.
