

Item Number: **MUM-14-2SHP**

**MUM (Multi Use Monocular) Generation 2 Super High-Performance (SHP) Advanced Multi-Purpose System**

Retail: \$2,999.00

**Savings: \$200.00**

**Your Price: \$2,799.00**

I am offering a VERY special NV package at an awesome price. Many of you have asked for a Gen 2 unit that can bridge the gap between a high \$\$ Gen 3 unit. Most wanted more resolution, optical quality and a lighter weight package versus the D-300. I have received in VERY limited quantities; Gen 2 Super High Performance (SHP) tubes from Germany. What is so special about these units is the resolution and photo response versus the normal Gen 2 units and the tubes are now built around an authentic Insight Technology Mil-Spec Multi Use Monocular (MUM) body housing! You can see by the pics below just how good the resolution looks in these units with the MUM glass helping out a great deal as well. Also, each and every unit comes with a data sheet as well!!

As everyone can see, I have tried to make a COMPLETE package to get everyone up and running as soon as your gear arrives. The special price for this package is \$2499.00 SHIPPED GROUND CONUS. No CC fee, no other fee's, etc! Due to the specs of the tubes, no units can be exported period, CONUS SALES ONLY! You will not find a more cost effective package with this performance at this price anywhere!

As an added bonus I have also decided to offer two of my best NV accessories, the **Fixed Beam IR Torch** and **MUM Universal Adapter** (to attach to your day scope), your choice at a VERY special price of **\$100.00** each! (Reg. price at \$149 and \$179) This special price is only offered with the purchase of the Gen 2 MUM package above. You can see a complete listing of these accessories and many more on our Accessory main page.

Standard Accessories include,

- MUM Gen 2 SHP
- Data Sheet
- Mil-Spec Head Gear
- Head Mount Adapter (J-Arm)
- Brow Pads
- Mil-Spec Weapon Mount
- Demist Shield
- Sac Lens
- AA and 3V batteries with Adapter (MUM can use either)
- Owners Manual
- Lens Cleaning Paper
- Soft Case
- Carry Strap
- FULL Bumper to Bumper One Year Warranty

Of course what is the good of getting NV gear and cannot see how it looks at night!!!

I have snapped some pics of the new MUM Gen 2 SHP unit. I have also snapped some pics of the D-300 Gen 2+ system to show the comparison. Keep in mind the moon was 3/4. I took the pics late as the moon was behind me low in the sky. The biggest difference you see with the Gen SHP MUM is the resolution. The biggest difference you will see with a high dollar Gen 3 system is during very dark conditions of course the Gen 3 units Photo response and Signal to Noise are much higher. This is why any of the Gen 2 units love the use of da torch IR illuminators. I HIGHLY recommend the use of da torch with all Gen 2 units.

**Price for the Gen 2 MUM SHP (DEP) is \$2799.00 SHIPPED**

I accept PayPal, CC and also Cashier's Check and Money Orders. Of course I must state here, NO SHIPPING OUTSIDE CONUS, EVER. Shipped to verifiable US addresses ONLY.
