

## MURLM (Multi-Use Rail & Light Mount)

Hello all,

As most know TNVC has continued to support the shooting community with innovative products such as Scope Accessory Ring Rail (SAR) that was released 2 years ago that has enabled a great many folks the luxury of mounting a mini red dot (MRD) or any other accessory to a scope or shotgun tube in a multitude of positions where rail space on a gun may be limited. We are very proud to present our next product entry, which is called the MURLM (Multi-Use Rail & Light Mount).

The 1st prototype MURLM was shown for the first time at SOF week in Tampa Florida and also at the NDIA Show in Texas with representation from Aimpoint Inc. The units were very well received and we also received some very valuable feedback from some incredible folks!

A bit of history about the MURLM,

In 2007, suggestions and requests from the shooting community asked TNVC to continue work on mini red dot (MRD) back-up mounting solutions for magnified optics, specifically for ACOG systems and dedicated NV platforms. With this in mind, we set out on these objectives.

1. To eliminate the “chin welds” of MRD’s mounted high at the 12 o’clock positions and enable the shooter to maintain a low profile and a solid platform especially while shooting on the move.
2. To offset an MRD at an optimum angle that would only require a very small rifle cant or “look-over” while maintaining the same cheek weld and could also be used while employing a gas mask. (Specifically the M53).
3. Combine this mounting solution with a lightweight flashlight to avoid separate mounts on a weapon.
4. The flashlight portion of the mount needed to be offset for VG wrap-around activation and also incorporate a very fast and strong QD system that a user could hand hold light weight lights (i.e. G2’s) and/or attach and remove a light from the weapon in very short order.
5. The ring system of the light needed to be low profile to transition to a hand hold fighting light if needed that was easily removed from the weapon.

The first concept approach in 2007 was mounting TNVC’s SAR 1 to a flashlight body, which an MRD sight was then offset on the light itself. We had several shooters prove the initial concept with great success, thus the MURLM was born!

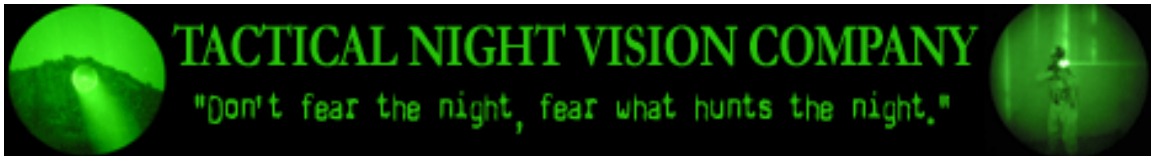

Some highlights of the MURLM include,

1. Lightweight metal construction hard anodized. Durability critical! Weight of the MURLM is at 3.4oz bare.
2. Hex screw hard mounting solution of the MURLM body to picatinny rail systems, which includes a recoil lug for maintaining zero of any optic mounted.
3. 1” variable sized low profile light ring with a proprietary quick detach system. This system uses a small tab release system that releases light from the front of the MURLM. It’s very fast to say the least to remove and replace the light in about a second or two!

We are now in the full production phase and units are ready for shipment!

**Price for the stand-alone MURLM is \$189.00 plus shipping.**

We are also offering special combo packages with the MURLM with substantial discounts when purchased as a combo. Here are the breakdowns.

**\*\*MURLM SPECIAL with Aimpoint T1/Light Combo Packages\*\***  
**Great Savings vs. Individual Purchases!**

MURLM/Aimpoint Micro T-1/  
Surefire G2L/256 Drop-In Q5 Lamp  
Item Number: **MURLM-T1-G2L-Q5**  
Retail: \$895.95  
**Savings: 112.95**  
**Your Cost: \$783.00**

MURLM/Aimpoint Micro T-1/  
Surefire 6P/256 Lumen Drop-In Q5 Lamp  
Item Number: **MURLM-T1-6P-Q5**  
Retail: \$885.95  
**Savings: \$111.95**  
**Your Cost: \$774.00**

MURLM/Aimpoint Micro T-1/  
Surefire G2/256 Lumen Drop-In Q5 Lamp  
Item Number: **MURLM-T1-G2-Q5**  
Retail: \$862.95  
**Savings: \$110.95**  
**Your Cost: \$752.00**

MURLM/Aimpoint Micro T1  
Item Number: **MURLM-T1**  
Retail: \$774.00  
**Savings: \$100.00**  
**Your Cost: \$674.00**

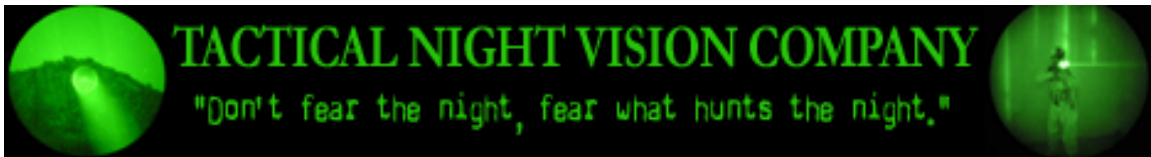

**\*\*MURLM SPECIAL with TNVC'S RDP Mini Red Dot/Light Combo Packages\*\***  
**Great Savings vs. Individual Purchases!**

MURLM/RDP/Surefire G2L/  
256 Lumen Drop-In Q5 Lamp  
Item Number: **MURLM-RDP-G2L-Q5**  
Retail: \$446.95  
**Savings: \$18.95**  
**Your Cost: \$432.00**

MURLM/RDP/Surefire G2/  
256 Lumen Drop-In Q5 Lamp  
Item Number: **MURLM-RDP-G2-Q5**  
Retail: \$416.95  
**Savings: \$9.95**  
**Your Cost: \$407.00**

MURLM/RDP/Surefire 6P/  
256 Lumen Drop-In Q5 Lamp  
Item Number: **MURLM-RDP-6P-Q5**  
Retail: \$434.95  
**Savings: \$11.95**  
**Your Cost: \$428.00**

MURLM/RDP - \$328.00  
Item Number: **MURLM-RDP**  
Retail: \$328.00  
**Savings: \$39.00**  
**Your Cost: \$289.00**
