

Item Number **RDP-II**

RDP-II MINI RED DOT SIGHT/SAR PACKAGE

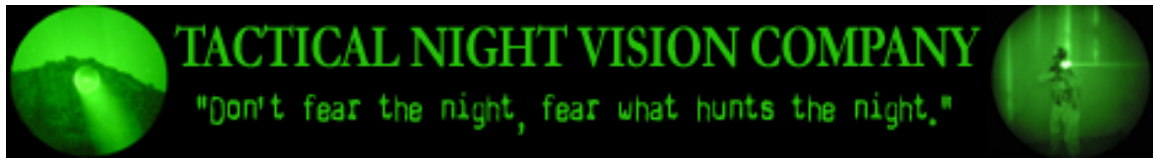

Retail: \$218.00

Savings: \$19.00

Your Price \$199.00

As many of you know, the TNVC SAR (Scope Accessory Rail) has been released with great success. (Btw, I am happy to report the SAR 1 and 3 units are now with some boys over a FT. Bragg getting a great workout!) Red dot BUIS sights were my primary requirement for the SAR. Over the last few years I've been working with MANY red dot sights and I have noticed a few shortcomings, enormous price and durability. Over the last few years others and I have shattered a few "plastic units" during room clearing and other high-speed drills to say the least. I also noticed the price of these plastic (and metal) red dot sights going higher and higher over the last several years as well. For the last 9 months I have been working with a manufacturer to get out a new metal red dot sight, the RDP-II. After several prototypes with different mounting solutions and bright LED's, I am offering the final result!! The new RDP is machined aluminum housing with a multi coated glass lens and a 3 MOA dot. I've painstakingly worked with the LED on the unit and during the brightest environments the 3MOA dot is very bright. The unit works off of a photo sensor and will show indoors with a dimmer dot. The unit's sensor will not see in the darkest environments without some ambient lighted conditions.

To everyone who has ordered from my extensive night vision product line, to the recent addition SAR and now the RDP, a big thanks!! I am glad you all are enjoying the gear!! I will continue to bring you quality gear with da BEST customer support all at a competitive price for your hard earned dollar.

The RDP comes standard with the following,

- Mounting base for picatinny or weaver type rails
- Allen Wrench
- Screw Driver for windage, elevation and locking screws
- Win/El Adjustment Dial
- Protective Lens Cap
- Lens Cleaning Cloth
- Manual
- Extra Lithium Battery (One Installed with each unit already)
- Two Extra Mounting Screws (I have included these extra mounting screws for mounting the RDP on the ACOG DOCTOR type bases, i.e. wing protector, etc!)**
- One Year Warranty

I am also happy to announce for the first time, I am offering a TRULY special package. Any SAR unit purchased with an RDP-II for ONLY **\$199.00!!**

RDP-II Specifications

- Construction – All aluminum housing with multi-coated glass view screen
- Dot Size – 3MOA
- Water Resistant
- Sight Window .8” x .6”
- Dimensions – 1.8” x 1.0” x .9”
